INTERNATIONAL BANK

Chinese Indemnity Will Give It a Boost at the Start.

IT IS CHARTERED IN CONNECTICUT.

Branches Will Be Established In the Philippines - Reaching Out For Oriental and South America Business - Plans and Purposes.

New York, Jan. 2.—The plans of the International Banking corporation, which has been named hy the president as repository for the portion of the Chinese indemnity due to the United States have been explained by General Thomas H. Huhhard, president of the board of directors of the new corporation. He says that after the Philippine agency is established other hranches will be instituted in the principal cities of the Philippines. The uitimate purpose is that the entire Orient and South and Central America shall be comprehended by the operatlons of the hank.'

Ail is the natural outgrowth of the commercial and territorial expansion of the United States, continued Gen. Hubbard. Heretofore there has been no particular need in the United States for a hanking institution doing an international business, hut since the Spanish war and the tremendous trade of recent years with South America, and the promise of a constantly increasing commerce with China and the Orient the necessity for just such an institution as this has been developed.

Heretofore all the exchange with foreign countries has been handled by the banks of Beriin and London. There are a number of international banks in these cities. It will he the purpose of the International hanking corporation to secure as much as possible of the exchange husiness heretotore handled by these foreign banks with which this country is concerned.

So far comparatively little has been done by the new bank, its charter by special enactment of the Connecticut legislature having heen obtained only last June. General Huhhard said a branch would he established in New York city, aithough the hank here would not he for purpose of deposit, exchange alone helng handled. Tals New York bank is to be a sort of clearing house for the various branch-

es controlled by the main institution. The reason why the charter was obtained in Connecticut, according to General Hubhard, is found in the fact that the laws of that state are unusually liheral to banking institutions.

PREFERRED STOCK RETIRED.

Northern Pacific Perfects Its Plans Preliminary to Merger Scheme.

New York, Jan. 2.-Formal notice was issued Thursday that in exercise of the power conferred upon it the Northern Pacific Railway company had retired its entire preferred stock. Each and every holder of a certificate for preferred stock not heretofore surrendered will, upon presentation and surrender of his certificate at the office of the company, No. 49 Wall stret, receive payment in cash at par. Except as to this claim, all rights and claims of the preferred stockholders have ceased to exist.

Notice was also given by the Northern Pacific Railway company toat It had elected to require the holder of every 4 per cent. controvertible certificat of the company to convert the same into the common stock of the company at the rate of one share of \$100 for each \$100 of unpaid principal of the certificate and upon presentation and surrender of such certificate at the company's office the holder will be entitled to receive therefor common stock of the company at the rate aforosaid. No interest will accrue or he payable on any such certificate from and after January 1, 1902.

These notices showed that the capital stock of the company now consists of \$55,000,000 entirely in common stock, and that the hond certificates issued to provide for the retirement of the preferred stock would be retired immediately. The effect of this was to put what was formerly preferred stock on the same hasls as the oid

All of the Northern Pacific stock is to be taken over by the Northern Securities company, which will also acquire all of the stock of the Great Northern. The Northern Securities company will thus hold the stock certificates of the two companies, and under the settlement agreed upon between the contending Interests for control in that field will administer the properties in its charge.

The belief in Wail street is general that the rapid retirement of Northern Pacific preferred stock, followed by the redemption of the bonds Issued for its retirement, removed the obstacles in the way of carrying out the plan for the adjustment of difficulties

which grew out of the contest for control of the Northern Pacific last May. It was this contest and a sensational rise of Northern Pacific common to \$1,000 a share which brought about Chosen to Be First Chief Executive of the sensational decline in the prices of other securities May 9.

OAUGHT IN A URIMP.

Committee in Charge of Property of Everett-Moore Syndicate.

Cieveland, Jan. 2.- A committee o: Cleveland bankers has taken charge of the various properties controlled by the Everett-Moore Electric railway syndicate.

A statement issued by the committee says that on account of tight money situation in different quarters where they were financing some of their enterprises, and although in their opinion they owned several million dollars worth of property over and ahove ilabilities, they would oe unable without temporary assistance to meet their ohligations. Many of these obligations arose from the fact that the syndicate was engaged in the construction of a number of enterprises which were not fully completed, requiring large amounts of money to pay for lahor and materials in construction. The syndicate was also recently disappointed in heing unable to compiete the negotiations for raising a large sum of money on certain bonds and stocks which would have furnished ready funds, and which negotiations it had reason to believe, untll 10 days ago, would result favorahiy. So far as the personal affairs of the members of the syndicate are concerned their equities are largely in excess of liabilities, and it is claimed all the personal creditors can be paid without doubt from assets, and several hundred thousand dollars put into completing the properties.

In Cieveland upwards of 30 banks are creditors and these banks hold the choicest of the securities and the most equities.

Messrs. Everett & Moore stated that they were perfectly willing to turn ail of their matters and properties ever to a committee that should he appointed to handle them in connection with themselves to preserve the most equities, with the hellef that when their properties were developed and creditors pald there would be a substantial amount to return to them.

The personnel of the commttee is as follows: R. R. Newcomp, chairman; Myron T. Herrick, J. J. sullivan, Calvary Morris, Kaufman Fays, E. G. Tilotson secretary, and W. C. Mather.

Following are the most valuable properties of the syndicate: Cieveiand Electric Railway company; Detroit United Railroad company; Cleveland, Painesville & Eastern Rallroad company; Detroit & Toledo Shore Line Railroad company; Lake Shore Electric Railway company and Northern Ohlo Traction company. All these properties were found, hardly without exception, in good condition, perfectly solvent and in nowise emharrassed. Among the telephone properties are the United States Long Distance Telephone company, the Cuyahoga Telephone company of Cleveland. the Stark County (O.) Telephone company, the Peoples Telephone company of Detroit, and numerous others.

HE ACCEPTS THE HONOR MODESTLY.

Sterling Cuban Patriot Receives a Shower of Congratulations From His Countrymen-He Was First Choice of General Gomez.

New York, Jan. 2.—General 'I nomas

Estrada Palma, the newly-elected president of Cuba, has received many dispatches and telegrams of felicitation from various parts of Cuba and this Senor Emilio Bacardi, mayor of Santiago, cabled in the name of the mu-

nicipal council: "I, with the president, wish you a happy New Year and all pleased to greet you as the first magistrate of the Cuhan republic." A dispatch from Dr. D. M. Satalos at Havana, a veteran of the 10 years' war in Cuha, sent a message of congratu-

lation. From Nuevitas, province of Puerto Principe, Miquel Roura sent the following dispatch: "Happy New Year. Triumph in Nue-

vitas. Hundred congratulations." Senor Joaquin Fortun, brother-in-

message from Mexico City: "i am particularly delighted at your success as I was one of the first to advise your candidacy. I am pleased, too, because you have been an immaculate patriot all your life."

General Paima was particularly pleased with a cable message from Libara, Santlago province, which is his native state. This dispatch read: "Oriental patriots salute you as the first president of Cuba."

Emilio Agramonte teiegraphed this from New York: "Hurrah for the honorable president of our country in whose hands its prosperity and napplness will be safe."

The Cuban president-elect was as reticent as ever regarding the policy of his administration. He said in an interview: "I have not had the !cast amhition to fill any postice; in fact, I all along refused to allow my name to be put forward as a presidential candidate. I am disappointed that there should have been any dissatisfaction over the election. I consented to the use of my name only at the last minute, when it was too late to withdraw. But I thought that absolute harmony prevailed, and that General Maso had consented to accept the vice presidency. I really would have preferred to have been allowed to stay out of polities and attend to my private affairs."

Senor Paima has been a resident of the United States about 18 years, and during the war which resuited in routlng the Spaniards from Cuha he was at the head of the Cuban junta in New York. He was regarded as the gulding spirit in that struggle, co-operating with General Gomez, the Cuban commander-in-chief in the field. General Gomez, often called the Washington of Cuha, might have been the first president of the new republic, but it was not his amhition and he came to the United States some months ago to persuade Senor Palma to stand for the presidency.

It also is understood that the re-appointment of Postmaster W. A. Wills of Nashville has been decided.

A GOOD SHOWING.

State Auditor's Report Shows Cash Balance of \$1,140,000.

Despite Lower Tax Rate and Heavy Expenses It Beats the Record Made By Republicans.

FRANKFORT, KY., Dec. 31 .- The last report of former Auditor Stone shows that there was a balance of cash in the treasury at the expiration of his term, December 1, 1899, just two years ago from this date, of \$1,060,425.08. This was all the money the Bradley administration had in hand at that time under a tax rate of 521 cents on each \$100 worth of property for the last three years of their term in office. For the years 1900 and 1901 the present Democratic administration has collected on a tax rate of 471 cents for each year. The balauce sheets of the Auditor and Treasurer at the close of business to-day will show a cash balance of about \$1,140,000, which is considerably more than the former administration had on hand at its close under the higher rate of taxation.

Had the tax rate of 524 cents continued for 1900 and 1901 there would have been in the treasury the additional sum of \$942,448.76, or over \$2,000,000, which is conclusive proof that fiscal affairs under the present administration have been more economically handled in the interest of the tax-payers of the State than under the Bradley regime.

This is an exceptionally fine showing when it is taken into consideration that the large sums squandered by the Taylor administration had to be paid and the expenses of two sessions of the General Assembly horne.

Had the tax rate of 521 cents been allowed to stand for the years 1900 and 1901 the old deficit existing in the general expenditure fund for years past would have been cleared up and the coming assembly would not have had this matter to deal with.

The report of State Auditor Coulter to the General Assembly contains a suggestion that the present rate be increased 23 cents and estimates that this with a reapportionment of the funds will repair the deficit in a short time and provide money to meet the appropriations necessary to be made at this session.

The new regulation of the C. and O. railroad requiring conductors to collect 10 cents extra from each person who gels on a tialn without a ticket, will not be put into force until February 1st, an order having just been issued to this ef-
